

Joey Dorman, candidate for Linganore High School Class of 2022 Class Council Secretary

I want to run for this position because I think that I could be a good asset to the council. I would be able to talk about what I have learned as the student representative for the SGA, and in addition to that, I have a lot of very good ideas that could help the student body as they aim to get through this bizarre time of education. One being somewhere to address their complaints or overall questions to different teachers or faculty regarding whatever they may have in mind.

In addition to my ideas to make online learning that much easier, I intend to try and make sure those who are interested in different events thought up by this council, whatever they may be, consider joining in. I would accomplish this by trying to make the sections of the notes I provide for the newsletter much more accessible, and make sure that those who read the newsletter, will take into consideration what the class council has provided for them via meetings.

Overall, I think that if I were to win, I could be a very upstanding member of of the council, and would be able to make this year one of our best.
