

This is my second year running for historian, and currently as historian I am all about making sure people in the council feel heard and included. If I were to be chosen again next year, I would keep that same priority because everyone in class council deserves to feel like they have a voice as a member. Also, I would continue to keep track of pictures for the scrapbook, stay alert and “in the know” of everything occurring throughout the school, and encourage students of Linganore to take pride in their school and have lots of school spirit. I’m hardworking, and great when it comes to working as a team. I would love to be given the chance to be historian again during the 2021-2022 school year!
