

My name is Ashley Hollar and I have been the Class of 2022 Vice President for the past 2 years and it has taught me a lot about leadership. I have been in many leadership positions and I work very well with groups. I always make sure that everyone has a voice in any matter and make sure that they feel heard in all situations. Things I would like to improve about class council is getting more participation in events and helping coordinate events. I want to make sure that everyone knows that their opinions and thoughts are heard. I also want to make sure that people are excited to participate in events and fundraisers.
