

Hello Students of LHS,

My name is Genesis Maldonado. I am a 9th grader going into 10th grade next year. I am eager to say that I will be running as Class Councils Vice President once again. I have been the class of 2024's Vice President this past crazy virtual/in person school year. I have also been involved in SGA since I was in middle school, I have enjoyed my experiences in Girlscouts, Key Club at LHS, and other volunteering opportunities throughout the past four years. I have had a lot of opportunities in leadership as I am a captain on my club soccer team and in soccer and other extracurriculars I have advanced my communication skills that are inviting and supportive. As I am running for this position I want to get more involved next year if I am to be your class council Vice President, a Vice President needs these qualities of support, with open ears and a leader, I strive to obtain all of these qualities and more. If I become Vice president I would like to have many more fundraisers and opportunities that are inclusive and exciting so people can feel like they belong as there are so many students who haven't even seen the school. We can also have a safe environment for more communication so we can really see what you as the student that make up this wonderful school really are interested in, more chipotle fundraisers, a food drive, ect. Many might not have many friends but at Linganore we are a team with pride and I want to represent that. So if you would consider voting for me, Genesis Maldonado as your Class Council Vice President I would be very grateful.
