

Hi everyone, I'm Kayla Mathers, a current Sophomore at LHS and I'm running for the 2021-2022 SGA President position.

While being Vice President in the SGA throughout Middle School and being involved in SGA in High School has given me the necessary skills and background for this role, my desire to make a positive impact and help others is my main focus. Helping people has always been a passion of mine which is why I am involved in extensive volunteer programs. I have enjoyed coaching the Frederick Special Olympics Cheer and Poms Team, Glitzy Gals, participating in the LEO club, and teaching Spanish to elementary school children at FCPS Summer camps, and more. All of these experiences have helped me develop strong leadership, social and organizational skills. I look forward to utilizing these abilities and the various other skills and perspectives I have developed during my time as a community aide as class President.

If the pandemic has taught me anything, it has shown me how important social interaction is for young adults. From Friday Night Lights to Prom, we have missed out on a lot this past year. If elected President my focus would be on providing more opportunities for unity and involvement for the student body. This could be achieved with more up to date events and advertisements that students would appreciate and want to attend. I would love to help more people get involved in the LHS community, sharing their ideas and working together to better the school, while ensuring everyone feels welcome and safe.
